

10th National Annual Conference of Society for Rural Mental Health
Theme- Psychiatry: Beyond Biopsychosocial Model
November 1-2, 2025 Ayodhya

Subject: Appreciation for Your Inspiring Lecture in Ayodhya

Dear Rajeev Gupta Ji,

Heartfelt thanks for your insightful lecture in Ayodhya. Your research-oriented approach and clarity made the session truly enlightening.

We especially appreciated your introduction to the emerging field of medical astrology for predictive diagnosis and Vedic remedies. While it cannot be an alternative to medical intervention, it certainly offers a valuable complementary perspective for understanding patterns and guiding preventive care. It also inspires us to explore and do further research in this important domain and understand its potential contribution in areas like mental health, oncology, infertility, and many other medical fields.

Your work is inspiring, and we look forward to future opportunities to learn and collaborate.

Warm regards,

Prof. Bhupendra Singh
Organizing Secretary
10th National Annual Conference
